**UNIVERSITY  
OF TURKU**

## Eficode and AWS Help University of Turku Scale to Improve Sustainability

[Connect with Eficode](#)

Based in Finland, the [University of Turku](#) built a business simulator to help students understand decision making around sustainability issues. To enable growth, the University worked with Amazon Web Services (AWS) and [AWS Partner Eficode](#) to improve the software's scalability and security. It has expanded its services to business leaders in addition to students. It can now add more features such as Amazon Quicksight, providing real business tools for all learners.

## About University of Turku

The Centre for Collaborative Research CCR focuses on research work with other organizations in a cooperative way. It studies business transformations at different levels: individuals, businesses, industries and in society as a whole. Besides research its develop and creates prerequisites for industry-academia collaboration and innovation activities for its faculty at Turku School of Economics. CCR is an active international collaborator in both research and innovation. It takes part in international multi-partner research and development projects, as well as innovation concepts. Alongside collaboration with research institutions, it also works with companies internationally.

## About AWS Partner Eficode
