MOOV

Transforming Payments with AWS and Visa Cloud Connect

Connect with Visa

[Moov](#), a payment processor with direct connections to major card networks and payment systems, ensures scalability and availability for high-demand scenarios, from political campaigns to exclusive product drops. With AWS as the backbone, Moov's solutions connect seamlessly, enabling faster and more scalable money movement across its network. Thanks to [AWS Partner Visa](#) and Visa Cloud Connect on AWS, Moov eliminated the need for traditional data centers and infrastructure, streamlining access to payment networks. This innovation delivers immediate transaction insights to customers already on AWS, enhancing the end-user experience and redefining payment processing.

About Moov

Moov is a new kind of payment processor, built from scratch in the cloud to make payments easier for developers & businesses. With Moov, businesses accept, store, send, and spend money — all through one simple integration. Moov is driven by a give-first mindset and supports a thriving network of developers with open-source libraries and a growing community.

About AWS Visa

Visa is a trusted network and world leader in digital payments, working to remove barriers and connect more people to the global economy. Their purpose is to uplift everyone, everywhere by being the best way to pay and be paid.
